MADE's cabinetry stands unparalleled in terms of quality of construction and thoughtfulness of design. Standard features include custom-laid veneer faces, mitered corners, full-extension drawers and 120° soft-close hinges. Upper cabinets have both traditional hinge and overhead door options, and incorporate open display cabinets and floating shelves. Options include stainless steel, dividable drawers, electronic touch-latch waste and recycling bins, Bocci inset outlets, and inset LED light strips installed on the underside of the upper cabinets. Furthermore, MADE cabinetry has been engineered to install cleanly, efficiently, and easily. Having installed many kitchens ourselves, we have engineered systems that make leveling, hanging, and scribing these cabinets a straightforward affair. Every MADE kitchen is designed and built to fit your floor plan in 1/32" increments to ensure that you get the perfect fit for your needs. Please contact MADE for a full list of options, designs, and pricing.
